From this it was erred that the field had recently been occupied. A cantonment in a capacity of about 200 men was located at the northern edge of field, south of Retzow. Some of the temporary buildings probabily a new and the old buildings had apparently been tarred. From loaded with beds and 2 aux force soldiers was observed Retzow, proceeding in the direction of the cantonment. No restons were seen at the field. Although new off-limits may were placed at the field boriers, several motor vehicles neighboring property owners crossed over the landing field.	
Ther land motor information with the were in land in sign of the same with the same wi	ling field had apparently been rolled. Many fresh trails of or vehicles were observed around the field. From this it was erred that the field had recently been occupied. A cantonment in a capacity of about 200 men was located at the northern edge of field, south of Retzow. Some of the temporary buildings probably a new and the old buildings had apparently been tarred. Trumble loaded with beds and 2 arr force coldiers was observed Retzow, proceeding in the direction of the cantonment. No realist tallations were seen at the field. Although new off-limited may were placed at the field borders, several motor vehicles neighboring property owners crossed over the landing field.  Comment. During the first half of June 1954, Retzow field was temporarily occupied by about 20 MiC-15s probably igned to a fighter regiment in Lacrz. According to rumors ch appear to be credible, the field was to be re-occupied er 1 July 1954. It is believed that aircraft of the regiment Parchim will be detached to Retzow auxiliary airfield for
